**HOCKEY****LACOMBE DEFEATS HIGH RIVER**

Look here, you hockey fans, what did we tell you last week. That the Lacombe Hockey Team would be the Intermediate Champions. We are almost certain of it now—but as I said last week, you never can tell. But from what the fans who journeyed down to the Prince of Wales country on Tuesday say, Lacombe has a team that can beat anything in the Dominion. The fastest game that was ever produced in High River was played, and the score which ended 2 to 1 in Lacombe's favor established an unlooked for precedent as that High River team has never been defeated on their own ice in the past three years. Just think of it. And the locals go right down and beat them in their own back yard. The game was a sensational one; replete with thrills and brilliant plays; hard checking; air tight goal tending and dazzling combination were the order. And as we said before, Lacombe won.

The first period started off fast, and play was end to end for the first five minutes. Overand, for High River was the first one to score. He made a nice rush and got through. Immediately following this score, Van caught the puck at the blue line and went right through and scored on a shot that was impossible to stop. Just before the finish of the first period, Van scored again on a rebound which Day tried twice to net, and E. Calkins also tried to net once, but Van slapped it past Doc Blaney for the final goal of the game.

The last two periods were goalless, and although High River put up a great game, Lacombe had it over them at every stage of the game. Our defence worked perfectly and all the players were on their toes. There were no stars—every man worked like a Trojan, and believe us, they can play. Herbie Watt was right there all the time and turned in a wonderful game.

High River will be here on Saturday for the return game, and if you want to see the fastest game ever played anywhere, be on hand. Special accommodation is being arranged for a large crowd, and we would like to see just how many people that arena will hold. The boys will need your support both moral and financial on Saturday. They need you to hold for them as never before, and you will see a wonderful game. Get there early or you may miss some of it.

**THAT MIDGET GAME**

Perhaps those fans of Lacombe, who were all in readiness to greet the boys on their return from Edmonton, with "Hail the Conquering Heroes," feel more like changing the tune to "How Come You Do Me Like You Do," and we wonder too. It's a fact that the best team won, and being honest we will give them all the credit that is due them, which is

plenty. The best team won and although we have a few excuses such as Stage Fright, Soft Ice, Short Handed and the Train Trip, to blame we are not going to say anything about that part of it, outside of telling how it happened and how we might have prevented the overwhelming score. We surely missed Ray Trott and if the ice had been a little less like a lake we might have made headway, and if Rod Reed had not been tripped just when he was about to shoot on an unguarded net, we might have prevented a whitewash. On the other hand, had Gordon Craig not been right onto his game, all the time, the score might have been 100 to nothing, so all in all we are well satisfied with the way things went. That Edmonton team is good and don't let anyone tell you different; but the locals were no less deserving of praise, for in face of the fearful odds, they plugged away till the curtain was rung down. Never was there a more sporting bunch than "Barney's Boys." They went down fighting and in the last minutes of the contest had the Edmonton boys driven behind their blue line, which position by the way was theirs, during the whole game after the initial five minutes, in which they ran in four goals. When we consider this initial lead and the strong defensive barrier they put up following it, it is little wonder that the locals did not make a better showing. The game was lost to Lacombe in those five minutes, and though the whole bunch Rod, Bruce, Boyd, Frank, Bill, Jimmie and Gordon put every ounce of energy into the attack on the stone wall defence, was too much for them and the final gong proclaimed Edmonton winner by an eight to nothing count, and that's that. Gordon Craig, the hero of the game, surely looked like a million dollars, when the Edmonton boys got through. He turned pucks aside that a professional would have trouble with. He caught them in the air, skated out for them, kicked them away from his door step and did everything but catch his own re-bounds or score, and we think he might have done that if his pads had not cramped his style somewhat. Rod Reed was right there too, he got through to the goal mouth a couple of times, which in itself is enough to assure him a place on the Canadian line-up. Bruce Tees and Frank Raymond were never daunted for a moment and kept up a fast clip during the whole game, and Boyd Carruthers did his stuff too, though he was the youngest member on the team. He worked like a veteran and it wasn't for want of trying that he did not score. Billie Belcher and Jimmie McDonald, the subs, did their best to try and bring in a counter, but it was too much to expect, and the boys lost. However a good time was had, and the boys certainly appreciated the little trip and though losers, they "Kept Smiling" and just say, "Wait 'Till Next Time." So we are waiting, and by the way, we are going to try to have this Edmonton team stop off here on their way back from Calgary, and with Ray on our lineup, again, and hard ice, we feel confident the score will be somewhat different.

**DEATH OF A. M. BOTHWELL**

(Regina Leader)

Educational and literary circles in Regina and throughout Saskatchewan are serious losers by the untimely death of Austin M. Bothwell, M.A. Mr. Bothwell enjoyed the affection and respect of hundreds upon hundreds of citizens. Kindly, generous, and genial, he was beloved as a friend as he was also regarded as an ornament to the cause of education and literary endeavor.

Mr. Bothwell will be missed by the Regina Canadian Club, to which he had given able and enthusiastic service in various capacities; he will be missed by the Canadian Authors' Association, of which he was president for Saskatchewan; he will be missed by every circle which had for its object the educational and literary progress of this section of the Dominion. He was an inspiration to these great causes as dear to his heart.

A. M. Bothwell was the first Rhodes scholar for Saskatchewan. He had always been brilliant in his special field of literature, whether as a writer himself, or as an instructor in English Literature was dear to him. He revelled in it. He fairly lived and breathed it.

Regina will keenly mourn the passing of this distinguished writer and educator. Still young in years, there seemed before him a long period of personal achievement, as also a rich service to others. With his widow, also a writer of note, and with her husband, long active in the affairs of the Canadian Authors' Association, there will be heartfelt sympathy in her sore trial.

Mrs. D. A. Lothian of Lacombe is a sister of deceased.

**SUN LIFE ASSURANCE COMPANY OF CANADA**

There is good news for the participating policyholders of the Sun Life Assurance Company of Canada in the announcement of President Macaulay at the annual meeting on February 14th, that the scale of dividends to policyholders will be increased—this for the eighth successive year. The interest rate on dividends left with the company will be maintained on the basis of 5 1-2 per cent. per annum during the new dividend year.

Every department of the Company's activities seems to have contributed to remarkable gain of twenty-three per cent in business—again the more noteworthy because there has been only a slight increase in new business among the companies on the North American Continent during 1927. The total amount of assurances in force with the Sun Life Company now approaches the billion and a half figure, having increased by over \$231,000,000 during 1927. Its total net income exceeded \$100,000,000.

There has been an increase in the assets of the Company also of over \$56,000,000, or 16 per cent, which brings that impressive total now to over \$400,000,000. There were paid to policyholders and beneficiaries, in respect to death claims, matured endowments, etc., during the year over \$42,000,000. The Company has paid out since its organization, under this head, over \$300,000,000.

The surplus earned during the year amounted to over \$38,500,000. The Company has followed its conservative policy with respect to the surplus and has made large allotments and appropriations to provide for every possible contingency. But even after these liberal deductions have been made, over \$11,000,000 has been carried over to the undivided surplus, which now exceeds \$45,000,000.

It is indicative of the efficiency and morale of the world-wide organization of the Sun Life that the increase in its income are from every department of its business and from

Canada; United States; South America and West Indies; Great Britain, South Africa and the Near East; China, Japan, India and the Far East. The rapid expansion of the Company's operations in these areas during the past year is also an indication of the vigour and enterprise of the Company, which seems to increase rather than diminish with its age and growth. Such a showing is not alone a tribute to President Macaulay, but a striking proof of the high quality of the personnel of his organization.

During the past year the Company has very greatly extended its business in the United States, where it is now represented in thirty States, with licenses enabling it to do business in a number of others.

The expansion of the Company's business, both on this continent and in Great Britain, has made necessary very extensive building operations. The Head Office building in Montreal is to be increased to mammoth proportions, the first part of the new building being now under construction. This building is designed, when completed, to accommodate 10,000 employees. Almost equally interesting is the action of the Company this year in purchasing one of the most central sites in London, just off Trafalgar Square and adjoining Canada House. Here is being erected one of the finest office buildings in the world's metropolis from which the business of the British Isles will be administered.

**Grand Old Man of Finance Passes**

The late Mr. Isaac Gouverneur Ogden, Vice-President of the Canadian Pacific Railway, who died Saturday, February 4, in his 84th year, was born in New York on October 10th, 1844. Educated in local schools, he commenced business in a New York mercantile house in 1860, subsequently entering the local banking firm of Fish and Hatch. He began his railway service as paymaster and accountant of the Chicago and Pacific Railway in 1871. He was auditor of the same road from 1876 to 1881. When he joined the Canadian Pacific Railway at its inception in 1881, he was made auditor of the Western Division, with headquarters at Winnipeg. There he remained until 1883, when he was promoted to a senior position as auditor at Montreal. In 1887, he became Comptroller. In December 1901, Third Vice-President, and in June, 1910, Vice-President.

The accounting system established in the Canadian Pacific Railway by Mr. Ogden is as near perfection as any human can make it be. All financial matters were under his direction. It was written of him that "Mr. Ogden's statements grew in bulk and value and meaning. He was precise to a cent. He was methodical to the smallest numeral. He was a model for accuracy and precision and clarity. He made a study of the financial conditions in the United States and the Dominion. In the sweep of his financial regard he included the whole world."

Mr. Ogden's life story, when it is written, will be well worthy of being termed an epic, for it will embrace, among many other matters, the entire story of the Canadian Pacific Railway, Canada's greatest commercial enterprise, from its beginning down to the present time. He was born when railroading on this continent was in its infancy. He had already reached early man-

hood when the American Civil War was raging. He saw Canada united by Confederation. He heard the cry of a country which knew that until it was bound together by steel rails it could not be a nation. He helped the Canadian Pacific, which was to carry out that high task, through its early difficulties, saw it flung across the Dominion from ocean to ocean, assisted it in its great work of filling the empty spaces of the West with prosperous settlers and, mounting steadily with it up the ladder of success, was able at last to look upon it in the hour of its triumph, when it had grown into the mighty organization it is today. He was one of the very few men now remaining who had been on the day-

roll of the Company from the start and who had been colleagues of such men as Mount Stephen, Van Horne, Angus and Shaughnessy. Under his guidance, the department of the Canadian Pacific grew from a strength of just six clerks to that of more than 900.

Long after he had passed the seventieth milestone, Mr. Ogden remained at his work, "the youngest man," as many people said, "in the entire Company." This youthful note seems to have impressed all who knew him for one finds it constantly repeated in sketches of his character. Says one of these: "Not only is the heart of Mr. Ogden big, it is young. It is perennially and blithesomely young. One never thinks of the age of Mr. Ogden. His step is light; his eye is clear; his laugh is fresh and delectable. Time may have powdered his hair a little; but, essentially, the vice-president is the young man who, in 1881, was engaged in Winnipeg as the sole accountant of the great new enterprise then beginning to take shape."

Again, they emphasize his kindness: "He was geniality itself. He was an optimistic philosopher. He had ample magnetism and enthusiasm. Although formal to a degree with figures, whose dignity must never be invaded, he expressed the genius of democracy in his hearty manner, his affability, his willingness to please and serve." It is because he had these qualities, as much as it is because of the work he accomplished for the Company, that the Canadian Pacific will miss Mr. Ogden. In the great shops at Calgary which bear his name he has his monument. But perhaps his finest monument, next to the esteem of his fellow-members of the huge Canadian Pacific family, is the super-efficient auditing and accounting system which he created and expanded.

## EXTRACTS FROM DIRECTORS' REPORT

Substantial advances have been made in all departments during the year.

The total net income for the year exceeded one hundred million dollars.

The strength and resources of the Company have been further enhanced.

The high earning power of the Company's investments has been again demonstrated. The net rate of interest earned on the mean invested assets, after fully providing for investment expenses, was 6.47 per cent. This gratifying result has been made possible by dividend increases, bonuses and stock privileges accruing on many of the Company's holdings.

The wisdom of the investment policy which has been consistently followed in past years, in favouring long term bonds and the stocks of outstanding and very carefully selected corporations, has been once more emphasized. The appraisal of our securities shows that the excess of market values over cost increased during the year by \$19,235,889.99. In addition, a net profit of \$5,028,033.20 accrued from

the redemption or sale of securities which had risen to high premiums.

The quality of the investments listed in the assets is testified by the fact that on both bonds and preferred stocks not one dollar, due either as interest or dividend, is in arrear for even one day, while the dividends accruing to common stocks are greatly in excess of the dividends payable on the same stocks at the time of purchase.

The surplus earned during the year amounted to \$38,511,029.67 from which the following appropriations have been made:

\$5,000,000 has been deducted from the market value of our securities as a further provision against possible future fluctua- tions, increasing the amount so set aside to \$10,000,000.

\$1,500,000 has been added to the account to provide for unforeseen contingencies, which now stands at \$12,500,000.

\$1,000,000 has been written off the Com- pany's Head Office building and other properties.

\$500,000 has been set aside to provide for the greater longevity of annuitants, bring- ing the total provision under this heading to \$2,000,000.

\$50,000 has been set aside to provide for claims in respect of total disability as yet unreported.

\$11,090,056.61 has been paid or allotted as profits to policyholders during the year. In addition, \$6,205,573.00 has been con- tingently allotted to deferred dividend poli- cies issued prior to 1911, and to five year distribution policies, to provide for profits accrued but not yet payable.

After making these deductions and alloca- tions, \$11,269,330.89 has been added to the undivided surplus, bringing the total over all liabilities, contingency account and capital stock to \$45,280,896.14.

Your Directors are gratified to announce, for the eighth successive year, a substantial in- crease in the scale of profits to be distributed to participating policyholders during the en- suing year.

#### MAY—McINNIS

A quite and pretty wedding was solemnized with nuptial mass at the Sacred Heart Church, Red Deer, at ten a.m. on Monday, when Miss Marion McInnis, youngest daughter of Mr. and Mrs. Angus McInnis, of Vermilion, Alta., became the bride of Theodore May, Blackfalds. The ceremony was performed by Rev. Father McDonald, while the bridal music was rendered by the organist, Mr. Hermery.

Given in marriage by her brother, the bride was attired in a French gown of peach georgette, trimmed with frills of satin ribbon and rhinestones. Her costume was completed by a hat to match and string of pearls the gift of the groom. Miss Maisie Taylor was bridesmaid, wearing a dress of gold crepe-back satin and hat to match. Mr. Nellie McInnis, brother of the bride supported the bridegroom.

A dainty buffet luncheon was served to twenty guests at the Auditorium hotel, Red Deer. They received numerous and useful presents.

#### RATHJE—PANRUCKER

A very pretty but quiet wedding was solemnized at the Catholic Church on Tuesday, the 14th of February, 1928, when Miss Ethel Ada Rathje, eldest daughter of Mr. and Mrs. P. N. Panrucker, of Lacombe was united in marriage to Mr. John Rathje, also of Lacombe. Rev. Father Harrison officiated.

The bride who was attended by Miss Emma Rathje, sister of the bride, was attractively dressed in pale mauve crepe-de-chene and carried a bouquet of pink and white carnations. Mr. Roy Whitecotton, friend of the groom, was best man.

At the home of the groom's mother, a very dainty luncheon was served. After a short visit in Edmonton the young couple will reside on their farm near Lacombe.

#### THE LOCAL COLONIZATION BOARD

During fall of 1926, a representative group of business men and farmers of this district met and discussed the question of more intensive settlement of the lands adjacent to the locality. They felt, that if some effort were not made to settle the community, it would not be settled in their lifetimes. Furthermore, they realized that every new settler or farm worker brought into the district contributed to the general welfare of everyone—not only in an economical way but socially as well. It was pointed out that a family of five contributed at least \$1500.00 to the community through expenditures on clothing, groceries, hardware, and articles not produced on the farm, and the single farm worker in proportion. It seemed logical to them to assume that greater population would mean lower taxes, better roads, schools, and a higher standard of land and stock values.

The local Board would appreciate your co-operation. Whether it be information on how to get relatives and friends from the Old Country or how to secure farm help for spring and summer, Jesse Fraser, the Secretary will be only too glad to have you call on him.

Simons on the board.
